OBJECTIVE

Full Stack Developer with 6 months of hands-on experience building responsive and dynamic web applications using **React.js** and **Python**. Experienced in working with **industry-standard practices**, including **API integration**, **CRM development**, and **dashboard interfaces**. Passionate about developing efficient, scalable, and user-friendly solutions to solve real-world problems.

EDUCATION

Master of Computer Applications - RV Institute of Technology and Management, Bengaluru, India CGPA: 8.72	2024 - 2025
Bachelor of Computer Applications – Community Institute of Commerce and Management Studies CGPA: 8.75	2020 - 2023

SKILLS

Technical Skills:

Programming Languages: Python, Java, C, Python-Flask

Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js, Tailwindcss, GSAP, shaden/ui

Database: MySQL, MongoDB

Version control: Git

Soft Skills:

Adaptable and eager to learn new technologies, team player, Quick learner.

EXPERIENCE

• React.js Developer Intern

AG Solutions.

March 2026 – April 2026

Developed and maintained **CRM** dashboard features using **React.js**, building reusable and responsive UI components with **shaden/ui** and modern styling practices. Integrated **REST APIs** and handled dynamic **data rendering with proper loading** and **error** states. Worked extensively on panel-based interfaces including tables, filters, and report views, while **collaborating** with team members to **debug issues** and improve overall **user experience**.

• Python Full-stack Intern

Merida Tech Minds.

Jan 2026 – Feb 2026

Developed a responsive user interface using **React.js** with reusable components like Banner which accepts dynamic data as **props**. Implemented dynamic **state management** and styled the UI using **Tailwindcss** for an engaging user experience and used **GSAP** for smooth animation.

• React.js Intern

Dyashin Technosoft Pvt Ltd.

Dec 2025 – Feb 2025

Designed and developed a responsive user interface using **React.js** with reusable components like product listings, details, and cart management. Implemented dynamic state management and styled the UI using **Bootstrap CSS** for engaging user experience.

PROJECTS

3Building Concept Solutions (CRM and Web-App).

April 2026

- Description:** Developed CRM and web application features using **React.js (functional components, hooks)**. Built responsive and reusable UI components, including tables, filters, and reporting interfaces. Integrated **RESTful APIs** for dynamic data handling and ensured performance optimization and cross-browser compatibility.
- Tools:** React.js, HTML, CSS, Tailwindcss, shaden/ui and react libraries like **react-router-dom**, **axios** etc.
- Link:** [not yet deployed](#)
- Achievement:** Gained hands-on experience in API integration and scalable UI development, and contributed to building efficient CRM dashboards and reporting workflows.

Square-M Reality (Client project).

Feb 2026

- **Description:** Developed a business website from figma design approved by the client.
- **Tools:** React.js, HTML, CSS, Tailwindcss, GSAP and react libraries like **react-router-dom**, **helmet**, **axios** etc.
- **Link:** squaremrealty.com
- **Achievement:** Gained knowledge about how to develop from the **Figma** and how to fetch and render using **Axios API**, made responsive and user-friendly interface.

Fortune Trading Academy (Merida project – Company website).

Jan 2026

- **Objective:** Learning the existing code and identifying and fixing bugs.
- **Tools:** React.js, HTML, CSS, Tailwindcss.
- **Link:** fortunetradingacademy.com
- **Achievement:** Gained knowledge about **global context**, how to understand the existing code and enhanced the **SEO** (sitemap.xml, meta, schema.org).

DS Preschool (Societal project).

April 2025

- **Objective:** Created a preschool website to improve outreach and parent engagement.
- **Tools:** React.js, HTML, CSS, Bootstrap.
- **Link:** dspreschool.netlify.app
- **Achievement:** Deployed at dspreschool.netlify.app with a responsive and user-friendly interface.

Adaptive Course Recommendation System (Full stack with AI).

September 2025

- **Objective:** Developed an adaptive course recommendation system to personalize learning using user profiles & engagement.
- **Tools:** Flask (Python), React.js, MongoDB, ML model (LightGBM), HTML, CSS, Bootstrap.
- **AI Tools:** Cursor, V0 By Vercel, Gemini pro and ChatGPT.
- **Achievement:** Built a real-time recommendation platform addressing cold start and feedback loop challenges, enhancing learner experience and outcomes.

TechMart (Ecommerce Website – internship project).

January 2025

- **Objective:** Built an eCommerce platform to showcase and manage tech products online.
- **Tools:** React.js, HTML, CSS, Bootstrap, MongoDB.
- **Achievement:** Developed a fully functional, responsive shopping site with dynamic product handling.

ADDITIONAL INFORMATION

Certifications:

- **React Developer (Intern)** – 2 Months internship on React Developer at AG Solutions.
- **Internship (React JS)** - Internship focused on React.js at Dyashin Technosoft Pvt Ltd.
- **Junior Software Development** - Junior software development certification from ROOMAN Tech.
